

The Daniels Fund JA Dream Accelerator

The Daniels Fund JA Dream Accelerator is an interactive and responsive career exploration experience that inspires high school students to develop a plan to pursue a meaningful career and future.

This exciting experience helps students realize their strengths and interests and how they align with a variety of career choices. Students are motivated by insights from emerging entrepreneurs and stories of Colorado visionaries, tailored to each student's interests and aptitudes. Volunteers guide students through each of the interactives and share their own real-life experiences to encourage them to think deeply about their future.

JA provides comprehensive learning resources for in-class lessons before and after students' visit to the Daniels Fund JA Dream Accelerator. Curriculum is customized to each student's experience, guiding them through a process to identify, research, refine, and pursue their goals.

Volunteer Overview:

- A 5-hour time commitment (8 a.m. to 1:30 p.m.) on one day that provides an opportunity to work with two groups of students
- There is no preparation required, volunteers are trained on-site before the first group of students arrives
- Maximum of six volunteers. Grab your coworkers, teammates, or friends to volunteer with you!
- A fantastic opportunity to share information about your personal and professional journey to success with young people
